- [SERVER-134008](#) Avoid cryptography sdist during Poetry bootstrap on s390x and ppc64le
- [SERVER-134063](#) Shred collection validator constants during parsing
- [SERVER-134109](#) Update PGO profiles
- [SERVER-134189](#) Release artifact tasks fail before checkout with custom build version overrides

Important: MongoDB 9.0 Availability

MongoDB 9.0 is production ready and is being incrementally rolled out to MongoDB Atlas clusters that use the Latest Version With Auto Upgrades option.

Availability for the remainder of MongoDB Atlas, MongoDB Enterprise Advanced, and MongoDB Community is coming soon.
